SUBJECT INDEX

a

Adapting education; **3**: 71.
Adaptive; **3**: 72.
Analysis; **1**: 26.
Answer comparison; **4**: 120.
APL (A Programming Language); **3**: 97.
Arithmetic word problem solving; **1**: 3.
Arithmetic word problems, structural variables; **1**: 7.
ASIP (A Small Integrated Processor) ; **4**: 123.
Assemblers; **4**: 103.
ATLAS; **4**: 108.
ATS (Automatic Test Systems); **4**: 107.
ATS BASIC programming language; **4**: 107.
Author language(s); **2**: 34, 37; **4**: 107, 115.
Authoring CAI languages(s); **2**: 59.
Authoring CAI system(s); **2**: 59.
Automated music printing; **1**: 28.
Automatic program documentation; **4**: 107.
Automatic Test Systems; **4**: 107.

b

BASIC CAI software package; **4**: 104.
Biology curricula; **3**: 91.
Biological sciences; **3**: 91.
Branching; **4**: 119.
BSAASL; **3**: 91.
Buffer; **4**: 103.

c

CAI; **4**: 107, 127.
  assembly language; **4**: 117.
  authoring language; **4**: 115, 118.
  courseware; **2**: 34.
  courseware authoring process; **2**: 59.
  courseware development aids; **4**: 109.
  Design System (CDS); **2**: 59.
  fields
    genetics; **1**: 13.
    mathematics; **3**: 97.
  genetic problems; **1**: 14, 17.
  systems; **4**: 115.
CALLOS; **3**: 92.
CBE
  fields
    biology; **3**: 91.
CCDL; **2**: 62.
CDE; **2**: 60.
CDL; **2**: 60.
CDS (CAI Design System); **2**: 59.
CDT; **2**: 61.
Central processors; **2**: 34, 37.
Characteristics of learners; **3**: 73
CMI; **1**: 28.
Coding strategies; **3**: 73.
Cognitive development; **3**: 71.
Cognitive style(s); **3**: 71, 73.
College faculty; **3**: 76.
Compilers; **4**: 103.
Composition; **1**: 25.
Computer-assisted instruction; **2**: 34; **3**: 84.
Computer-based education; **3**: 76, 79.
Computer-based instruction; **3**: 79.
Computer-based learning; **3**: 76.
Computer-based learning materials; **3**: 77.
Computer-based tutorials; **2**: 42.
Computer generated; **3**: 72.
Computer programming; **2**: 42; **3**: 97.
Computer programs; **3**: 102.
Computer simulations; **3**: 91.
Computerized testing; **1**: 9.
Consortium; **1**: 29.
Content; **3**: 70.
Content structure; **3**: 72.
Cost effectiveness; **3**: 94.
Costs, lowering of; **4**: 127.
Costs of computer construction; **4**: 123.
Courseware; **2**: 59.
Coursewriter III; **4**: 118.
Cox's law of computer acquisitions; **4**: 127.
CRT; **4**: 103.
Curriculum development; **3**: 72.
  technology; **3**: 72.

d

Data lists, access of; **4**: 119.
Deaf or hearing-impaired students; **1**: 1.
Deaf students
  arithmetic skills compared with hearing students; **1**: 6.
  cognitive skills; **1**: 10.
  use of English; **1**: 8.
Decision-making process; **3**: 70.
Descriptive quantitative data; **2**: 34.
Display adapter; **4**: 103.
Documentation; **2**: 34.
Drill and practice; **3**: 68, 69.

e

Ear training; **1**: 23.
Economical portable digital systems laboratory; **4**: 123.
Economics of CAI; **1**: 9.
Education; **1**: 21.

Educational planning and decision-making; 2: 34.
Educational technology; 3: 77.
Elementary mathematics; 1: 3.
Eratosthenes' prime number sieve; 3: 97.
Evaluation; 1: 21; 3: 93.
Evaluation experiments; 1: 4.
Extemporaneous; 3: 72.

f

Faculty; 3: 76.
  behavior; 3: 76.
  disinterest in CBE; 3: 76, 77.
  reward system; 3: 78.
Feedback; 3: 69.
Flexible access to PILOT; 4: 127.

g

Gauss's formula for triangular numbers; 3: 97.
General terminal services; 4: 127.
Generative; 3: 69.
  systems; 3: 72.
Genetics; 1: 13.
  problems; 1: 17.
'genpbs'; 1: 15.
"Glass box" approach; 3: 97.
Graphic design; 4: 120.
GUIDO; 1: 24.

h

Hardware from several different vendors; 4: 127.
Higher education; 3: 76.

i

Immediate learning; 3: 72.
Impact of computer-based instruction; 3: 91.
Individual learner variables; 3: 71.
Individual methods; 3: 72.
Individual needs; 3: 72.
Information processing; 3: 73.
Information retrieval; 1: 26.
Input/output bus; 4: 103.
Instruction generator; 3: 70.
Instructional improvement; 3: 81.
Instructional interactions; 3: 72.
Instructional procedures; 3: 72.
Instructional strategies; 2: 34, 38; 3: 72.
    design; 3: 73.
    validation; 3: 73.
Instructional technology; 3: 77.
Instructional variables; 3: 70.
Instrumental music education; 1: 21.
Intellectual abilities; 3: 73.
Interaction; 3: 70.
Interactive; 3: 72.
    Instructional Process; 3: 70.
    scheduling; 3: 51, 52.
    scheduling modules; 3: 53.
Interdata; 4: 128.
Interface; 3: 70.
Interface component; 3: 70.
Internal processing by learners; 3: 69.
Interpreters; 4: 103.
Introductory genetics problems; 1: 13.

k

Key-phrase questions; 2: 44.

l

Language Arts; 1: 14.
Language extensibility; 4: 121.
Language simplicity; 4: 116.
Learner; 3: 69, 70.
Learner control; 3: 84.
Learner variables; 3: 71.
Learning; 3: 72, 102.
Learning resources aided instruction; 4: 107, 123.
Learning sets; 3: 73.
Learning style; 3: 71.
Learning task(s); 3: 71, 72.
Level of instruction; 2: 34.
Loaders; 4: 103.
Locus of control; 3: 88.
LRAI type systems; 4: 125.

m

Mathematics education; 3: 97.
McLRAI; 4: 126.
Media; 3: 71.
Memory bus; 4: 103.
Microinstructions; 4: 104.
Microprocessors; 4: 103, 105.
Microprogrammed; 4: 103, 104.
Minicomputer assisted instruction system; 4: 107.
Minicomputers; 4: 127.
Missile test systems; 4: 107.
Mixing and matching brand names; 4: 128.
Model; 3: 69, 70.
Modular orientation; 4: 118.
Motivational; 3: 69.
Multiple-choice questions; 2: 44.

MUMPS; 2: 43.
Music; 1: 21.
Music theory fundamentals; 1: 22.

n

National Consortium for Computer-Based Musical Instruction (NCCBMI); 1: 29.
Networking; 4: 105.
Newton's square-root algorithm; 3: 97.

o

OEM; 4: 103.
Operating system; 4: 103.
Orchestration; 4: 108.

p

Pacing; 3: 69.
PDP-11; 2: 59.
Performance model,
  linear regression; 1: 5.
  "trajectory"; 1: 5.
Personality traits; 3: 73.
PILOT; 4: 116.
PLATO system; 3: 78.
Portable cassette units; 4: 128.
Portable digital systems laboratory; 4: 124.
Predesigned; 3: 72.
Professional socialization; 3: 77.
Program driver; 2: 42.
Program portability; 4: 117.
Psychomotor skills; 3: 68.

q

QUEST; 2: 42.

r

Recursion; 3: 97.
Recursive computer programs; 3: 97.
Remediation; 3: 69.
Response analysis; 3: 70.
Retention; 3: 72.
ROM; 4: 103.

s

SAL (Simple Author Language); 4: 107.
Scope and sequence of content; 3: 73.
Secret to lowering cost; 4: 128.
Sequencing; 3: 72.
Sequencing of materials; 3: 71.
Serial I/O adapter; 4: 104.
Set theory; 1: 25.
Small educational orientated computer; 4: 123.
Socialization; 3: 77.
Software transportability; 4: 113.
Sources; 2: 34, 39.
STEP; 4: 107.
Stimulus; 3: 71.
Structure of knowledge; 3: 72.
Student control; 3: 72.
Subject matter; 2: 34, 36.
Surgery; 2: 42.

t

Tape cartridges; 4: 104.
Teaching; 2: 42.
  effectiveness; 3: 69.
  practices; 3: 78.
Telecommunication; 4: 104.
Testing; 2: 42.
Text editor; 4: 103.
Time; 3: 69.
Timesharing; 4: 105, 127.
Timetable preparation; 3: 52.
Trait-treatment interactions (TTI); 3: 72, 73.
Translator; 2: 59.
Transportability; 4: 113.
Treatment; 3: 70.
Treatment variable; 3: 71.
TTI; 3: 73.
Tutor; 3: 69.
TUTOR; 2: 59.
Tutorial(s); 2: 42; 3: 69.
Tutorial interaction; 3: 69.
Tutoring process; 3: 70.

u

University faculty; 3: 76.
University teaching; 3: 76.
